

## ALL THINGS WORK TOGETHER

Lead    Though the storms keep on raging in my life  
          And I can not see too far ahead  
          I have this blessed assurance in knowing  
          That he will see me through the storms of life  
          I know he'll lead me safely through  
          I know he'll guide me safely through  
          This I know

Choir   You may not see it right now  
          You have to believe it by faith  
          He said in his word, it's working for my good x2  
          All things work together for the my good

Work    If I never had a problem, I wouldn't know, he could bring me out  
          We must go through the test, go through the trials and know  
          All things work together for my good

End     All things work together for my good
